Re: CES Environmental Services, Inc. Site, Houston, TX

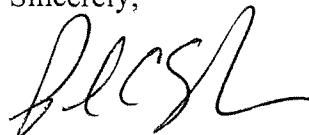

Dear Ms. Salinas:

On July 2, 2015, the Environmental Protection Agency ("EPA") sent a General Notice Letter to Enterprise Products Company ("Enterprise Products") regarding the CES Environmental Services, Inc.'s property located at 4904 Griggs Road, Houston, Texas (the "CES Site"). Enterprise Products received EPA's General Notice Letter on or about July 6, 2015. In response to a request by Enterprise Products, EPA extended the deadline for a response to the General Notice Letter to October 4, 2015. This letter provides the required response on behalf of Enterprise Products, and it is timely filed.

Since receiving the General Notice Letter, Enterprise Products has been communicating with other parties that received similar letters that EPA sent on February 20, 2015, and June 30, 2015. These discussions, aimed at identifying a critical mass of parties that might participate in addressing the CES Site, are on-going. For purposes of this response, without admitting any liability with respect to the CES Site, Enterprise Products is willing to enter into settlement negotiations with EPA with respect to this matter. Key issues with respect to these settlement discussions will include ensuring that there is a sufficient number of viable potentially responsible parties engaged in the process, and obtaining a better understanding of what terms EPA may wish to include in any settlement agreement. We look forward to discussing these issues with you in further detail as we proceed into the settlement negotiations.

Please contact me with respect to further discussions regarding the CES Site. I am happy to visit with you if you have any questions.

Sincerely,

Paul C. Sarahan
